21 Brilliant Colors in Three Tough Finishes

Standard Finish (all products)

Penco's standard paint finish is perfect for most applications. The paint surface has been proven to be tough and durable. Standard finish is available in both powder coat and wet paint processes *(depending on product and point of manufacture)*.

PowderCoatPlus™ Finish (for lockers)

PowderCoatplus is a cost-effective way of improving the durability and rust resistance of steel lockers. After a specialized cleaning and pre-treatment of the steel, a 2 mil thick coating of powder coat enamel is applied and baked onto the steel surface *(replaces galvanized steel)*.

X-Off™ Anti-Graffiti Paint Finish (for lockers)

Penco's X-Off Anti-Graffiti Paint provides a surface coating that allows easy removal of graffiti with the special Eraso® cleaner. This specially formulated paint has a tight molecular structure that completely seals the locker surface, preventing graffiti and corrosive agents from penetrating the finish.

A Superior Paint Process

To achieve the strongest bond between the paint and the metal surface, all Penco painted products receive the most advanced metal treatment in the industry. This six stage pre-paint conditioning process is monitored by computer controlled sensors which provide real time feedback to the operators, and assure that all processes are completed to specifications. During the process, a hot spray wash removes contaminants from the steel. A heated coating of phosphate film is applied creating a surface that resists corrosion and improves paint bonding. Once the steel has been conditioned and dried, a premium custom blended enamel is applied by one of the industry's most efficient electrostatic paint systems. Products are then cured in a continuous curing oven, resulting in a beautiful painted finish with superior performance characteristics.

KEY TO TABLE

STD. = No extra charge. Many models are Quick Ship and ship in 72 hours.
A = No extra charge, available on production run.
C = Consult with sales representative for availability and pricing (Special Price Inquiry)
E = Extra charge applies per color surcharge schedule
N/A = Not applicable

SPECIAL NOTES

(1) Clipper and Erectomatic shelf boxes and their dividers are available in 028 Gray only. Clipper Modular Drawers are available in Putty 3 finish or 028 Gray.
(2) Wide Span is painted 028 Gray unless otherwise specified.
(3) Locker doors, frames and body parts are painted the same color. Two-tone finishes are available at additional cost. Contact your Penco representative for details.

Color Availability By Product Line.

Lockers are available in all 21 colors.
