

PATRIOT[®] Fully Framed Duty Locker - KD

Penco's Patriot Fully Framed Duty Locker was built with law enforcement in mind. With a 14-gauge welded shell and 16-gauge drawer, the Duty locker provides no less than 3.4 cubic feet of usable storage in the drawer base alone. The 33 or 36 inch deep base optionally accepts individual or continuous lengths of hardwood locker benches for seating.

- Compatibility of accessories across all product lines built on the platform
- Ease and of quoting and ordering custom configurations
- Rigid frame design does not require large frame members at top and bottom of locker resulting in more storage space inside the locker
