SAFETY DATA SHEET

1. Identification
Product number: 1000023613
Product identifier: SC-AMR-004 REFILL LINEN FRESH
Revision date: 03-06-2015
Company information: Vectair Systems Inc.
PO Box 11068
Memphis, TN 38134 United States
Company phone: 1-877-697-7276
Version #: 03
Supersedes date: 03-05-2015
Recommended use: Air Freshener
Recommended restrictions: None known.

2. Hazard(s) identification
Physical hazards: Flammable aerosols
Health hazards: Serious eye damage/eye irritation
Environmental hazards: Not classified.
OSHA defined hazards: Not classified.
Label elements:

- Flammable aerosol
- Hazard statement: Danger
- Hazard statement: Extremely flammable aerosol. Causes serious eye irritation. May cause drowsiness or dizziness.
- Precautionary statement: Prevention
  - Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Avoid breathing gas. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear eye/face protection.

- Precautionary statement: Response
  - If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison center/doctor if you feel unwell. If eye irritation persists: Get medical advice/attention.

- Precautionary statement: Storage
  - Store in a well-ventilated place. Keep container tightly closed. Store locked up. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.

- Precautionary statement: Disposal
  - Dispose of contents/container in accordance with local/regional/national/international regulations.

4. First-aid measures

**Inhalation**
Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.

**Skin contact**
Wash off with soap and water. Get medical attention if irritation develops and persists.

**Eye contact**
Rinse with water. Get medical attention if irritation develops and persists.

**Ingestion**
Rinse mouth. Get medical attention if symptoms occur.

**Most important symptoms/effects, acute and delayed**
May cause drowsiness and dizziness. Headache. Nausea, vomiting. Irritation of nose and throat. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

**Indication of immediate medical attention and special treatment needed**
Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

**General information**
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

**Suitable extinguishing media**

**Unsuitable extinguishing media**
Do not use water jet as an extinguisher, as this will spread the fire.

**Specific hazards arising from the chemical**
Contents under pressure. Pressurized container may explode when exposed to heat or flame.

**Special protective equipment and precautions for firefighters**
Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.

**Fire-fighting equipment/instructions**
Move containers from fire area if you can do so without risk. Containers should be cooled with water to prevent vapor pressure build up. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out.

**Specific methods**
Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. Use water spray to cool unopened containers. In the event of fire and/or explosion do not breathe fumes.

**General fire hazards**
Extremely flammable aerosol.

6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures**
Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing gas. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

**Methods and materials for containment and cleaning up**
Refer to attached safety data sheets and/or instructions for use. Eliminate all ignition sources (no smoking, flames, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Use water spray to reduce vapors or divert vapor cloud drift. Isolate area until gas has dispersed. Prevent entry into waterways, sewers, basements or confined areas. Following product recovery, flush area with water. For waste disposal, see section 13 of the SDS.

**Environmental precautions**
Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

**Precautions for safe handling**
Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used when handling the product must be grounded. Do not re-use empty containers. Avoid breathing gas. Avoid contact with eyes. Avoid prolonged exposure. Use only in well-ventilated areas. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.
8. Exposure controls/personal protection

Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection

Wear safety glasses with side shields (or goggles).

Hand protection

Wear appropriate chemical resistant gloves.

Skin protection

Wear suitable protective clothing.

Respiratory protection

If permissible levels are exceeded use NIOSH mechanical filter / organic vapor cartridge or an air-supplied respirator.

Thermal hazards

Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Conditions for safe storage, including any incompatibilities

Level 2 Aerosol.

Store locked up. Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C/122 °F. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. This material can accumulate static charge which may cause spark and become an ignition source. Refrigeration recommended. Store away from incompatible materials (see Section 10 of the SDS).
Physical state  | Gas. Form  
| Aerosol. Color  
| Not available. 

Odor  | Not available. 
Odor threshold  | Not available. 

pH  | Not available. 
Melting point/freezing point  | Not available. 
Initial boiling point and boiling range  | 132.89 °F (56.05 °C) estimated 

Flash point  | -156.0 °F (-104.4 °C) propellant estimated 
Evaporation rate  | Not available. 

Flammability (solid, gas)  | Not available. 
Upper/lower flammability or explosive limits  
Flammability limit - lower (%)  | 1.6 % estimated 
Flammability limit - upper (%)  | 14.5 % estimated 
Explosive limit - lower (%)  | Not available. 
Explosive limit - upper (%)  | Not available. 

Vapor pressure  | 258.6 psig @ 70F estimated 
Vapor density  | Not available. 
Relative density  | Not available. 

Solubility(ies)  
Solubility (water)  | Not available. 
Partition coefficient (n-octanol/water)  | Not available. 
Auto-ignition temperature  | Not available. 
Decomposition temperature  | Not available. 
Viscosity  | Not available. 
Other information  
Specific gravity  | 0.682 estimated 

10. Stability and reactivity  
Reactivity  | The product is stable and non-reactive under normal conditions of use, storage and transport. 
Chemical stability  | Material is stable under normal conditions. 
Possibility of hazardous reactions  | Hazardous polymerization does not occur. 
Conditions to avoid  | Avoid temperatures exceeding the flash point. Contact with incompatible materials. 
Incompatible materials  | Strong oxidizing agents. 
Hazardous decomposition products  | No hazardous decomposition products are known.

11. Toxicological information  
Information on likely routes of exposure  
Ingestion  | Expected to be a low ingestion hazard. 
Inhalation  | May cause drowsiness and dizziness. Headache. Nausea, vomiting. Prolonged inhalation may be harmful. 
Skin contact  | No adverse effects due to skin contact are expected. 
Eye contact  | Causes serious eye irritation. 

Symptoms related to the physical, chemical and toxicological characteristics  | May cause drowsiness and dizziness. Headache. Nausea, vomiting. Irritation of nose and throat. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation: Prolonged skin contact may cause temporary irritation.

Serious eye damage/eye irritation: Causes serious eye irritation.

Respiratory or skin sensitization: Not available.

Respiratory sensitization: This product is not expected to cause skin sensitization.

Skin sensitization: This product is not expected to cause skin sensitization.

Germ cell mutagenicity: No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Carcinogenicity: This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

Reproductive toxicity: This product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity - single exposure: May cause drowsiness and dizziness.
Specific target organ toxicity - repeated exposure: Not classified.
Aspiration hazard: Not likely, due to the form of the product.
Chronic effects: Prolonged inhalation may be harmful.

12. Ecological information
Ecotoxicity: Toxic to aquatic life with long lasting effects.
Components | Species | Test Results
--- | --- | ---
Acetone (CAS 67-64-1) | Water flea (Daphnia magna) | 21.6 - 23.9 mg/l, 48 hours
| Rainbow trout,donaldson trout (Oncorhynchus mykiss) | 4740 - 6330 mg/l, 96 hours
Diethylene Glycol Monoethyl Ether (CAS 111-90-0) | Bluegill (Lepomis macrochirus) | > 10000 mg/l, 96 hours

* Estimates for product may be based on additional component data not shown.
Persistence and degradability: No data is available on the degradability of this product.
Bioaccumulative potential: No data available.
Partition coefficient n-octanol / water (log Kow)
| Component | Value |
--- | --- |
Acetone | -0.24 |
Diethylene Glycol Monoethyl Ether | -0.54 |
Propane | 2.36 |
Mobility in soil: No data available.
Other adverse effects: No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations
Disposal instructions: Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.
Local disposal regulations: Dispose in accordance with all applicable regulations.
Hazardous waste code: The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
US RCRA Hazardous Waste U List: Reference
Acetone (CAS 67-64-1) U002
Waste from residues / unused products: Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging: Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied. Do not re-use empty containers.

14. Transport information
DOT
UN number: UN1950
UN proper shipping name: Aerosols, flammable, (each not exceeding 1 L capacity)
Transport hazard class(es): Class 2.1
Subsidiary risk: -
Label(s): 2.1
Packing group: Not applicable.
Special precautions for user: Read safety instructions, SDS and emergency procedures before handling.

This product meets the exception requirements of section 173.306 as a limited quantity and may be shipped as a limited quantity. Until 12/31/2020, the "Consumer Commodity - ORM-D" marking may still be used in place of the new limited quantity diamond mark for packages of UN 1950 Aerosols. Limited quantities require the limited quantity diamond mark on cartons after 12/31/20 and may be used now in place of the "Consumer Commodity ORM-D" marking and both may be displayed concurrently.
