## **Common Color Body Parts (CCBP) - Guidelines**

**Date: 6/16/2021**

### **Lockers NOT part of the CCBP (Lockers listed below DO NOT require you to add 5% or \$500)**

- 1) Wall Mount Lockers
- 2) 16 Person Lockers
- 3) Executive Lockers
- 4) Galvanneal Lockers
- 5) Double Door Lockers
- 6) Two Person Lockers
- 7) Duplex Lockers
- 8) Dual Lockers
- 9) 7 – Person Lockers
- 10) 8 – Person Lockers
- 11) Box Over Lockers

### **SPI's**

- 1) Custom Colors - All Vanguard and Guardian lockers with custom color will be priced based on FULL color, you DO NOT need to add the 5% or \$500 to these lockers (will be handled on SPI).
- 2) Vanguard and Guardian modified lockers (SPI) - lockers needing modification in anyway, will need to be FULL color but you DO NOT need to add the 5% or \$500 to these lockers (will be handled on SPI).
- 3) Vanguard and Guardian lockers (SPI) for those lockers that are generally standard lockers but only the size needed is not in the price book, these will be priced based on CCBP and if full color is needed you need to add the 5% or \$500 to these lockers (a note of the above will be put on the SPI).

### **Multiple Types of Lockers on one order**

- 1) Option 1 – Ordering a mix of locker types, like Vanguard and Invincible II, all from the price book, you could order the Vanguard lockers in CCBP with the full color Invincible II lockers. If ordering the Vanguard or Guardian lockers in CCBP when ordering another none CCBP locker, you would NOT need to add the 5% or \$500 to the Vanguard or Guardian lockers as long as you are getting them in CCBP.
- 2) Option 2 - Ordering a mix of locker types, like Vanguard and Invincible II, all from the price book, if you choose to order the Vanguard or Guardian lockers in FULL color to match the other non-CCBP lockers, you WILL need to add the 5% or \$500 whichever is greater to the Vanguard or Guardian FULL color lockers.

### Accessories

- 1) Flat Top Lockers - When not ordering slope hood or slope tops and you want the top of the locker to match the D&F color, you will need to order a NEW TOP in the color to match D&F. This means you will end up with extra tops in 073 Champagne. **NOTE:** The WHOLE TOP will be painted in the selected color, meaning when you open the locker door the inside top will be the selected color and the rest of the body will be 073 Champagne. **NOTE:** In a few months after the launch of the new ERP system, we will have an option in the configurator to change the top to match the color of the D&F, this will eliminate the need to ordering extra tops.
- 2) Backs – two options
  - a. If you have an exposed back, you will either need to order full color, which in this case you WILL need to add the 5% or \$500 whichever is greater
  - b. You can order using CCBP but you will need to order extra backs in the same color as the D&F's and in this case you would NOT need to add the 5% or \$500.
- 3) Unit Slope Tops - The locker slope divisions will be painted in 073 Champagne, the slope top will be painted to match the D&F, you will need to order Slope Top Cover Panels to cover up any exposed common color ends.

### Finishes

- 1) Powder Coat Plus – Not part of the CCBP, add the appropriate upcharge from price book plus you will need to add 5% or \$500 whichever is greater.
- 2) Anti-Graffiti – Not part of the CCBP, add the appropriate upcharge from price book plus you will need to add 5% or \$500 whichever is greater. (note: if under 20 frames send in an SPI)
- 3) Anti-Microbial – Not part of the CCBP, add the appropriate upcharge from price book plus you will need to add 5% or \$500 whichever is greater. (note: if under 20 frames send in an SPI)
- 4) Galvanneal – Not part of the CCBP, even if ordering color 073 champagne, add the appropriate upcharge from price book plus you will need to add 5% or \$500 whichever is greater.

### Exposed Ends / Cover Panels

- 1) Exposed Ends
  - a. If you have exposed CCBP end, our current design of 16-gauge Exposed End does not cover the whole side of the locker. We will be looking at this in the near future but meanwhile you only choice is the cover panel or the Box Finished End Panel.
- 2) Cover Panels
  - a. If you have an exposed CCBP end, you may use the 24-gauge cover panels which will cover the whole side and not show any CCBP's.
  - b. If 16-gauge is needed, using the 24-gauge cover panel over the 24-gauge division should meet your needs but if you must have a 16-gauge end, your only choice is to order a 16-gauge Boxed Finished End Panel.

**Rear Legs** – When ordering Vanguard or Guardian lockers WITH legs, the rear legs will be painted in CCBP (073), if you have an exposed rear leg, you will need to order spray paint and spray legs as needed on site to match D&F color.

### **Two Tone**

- 1) Two Tone using FULL color lockers.
  - a. ONLY TWO colors are involved.
    - i. Body and Frame one Penco color, Doors one Penco color. The 5% or \$500 whichever is greater WILL need to be added.
  - b. ONLY TWO colors are involved
    - i. Frame one Penco color, doors and body one Penco color. The 5% or \$500 whichever is greater WILL need to be added.
- 2) Two Tone Lockers using CCBP.
  - a. ONLY THREE colors are involved.
    - i. Body CCBP (073), frame one Penco color, doors one Penco color. You do NOT need to add the 5% or \$500. Note: this will need to go to detail which will add to the lead time but with is being 3 different colors this will also add to the lead time.

### **Unit Pack Lockers**

- 1) These lockers are subjected to the CCBP also and if FULL color is needed you will need to add the 5% or \$500 whichever is greater. Note: these lockers will also have a longer lead time when using CCBP.

**NOTE:** Penco retains the right to modify / change any of the guidelines listed above at any time.
