

Garment Dispensing Lockers
& Hygiene Products

Servicing the Uniform and Linen Rental Industry

About Penco

The need for storage products is universal and Penco has grown a wide spectrum of solutions to fill that need. In doing so, Penco has become one of America's largest and most trusted suppliers of storage and work-area products. With state-of-the-art U.S. manufacturing facilities and QuickShip Distribution Centers strategically located throughout the United States, Penco is positioned to best serve your needs.

Market sectors served by Penco include educational, healthcare, and government facilities, as well as offices, manufacturing companies, distribution warehouses, retail outlets, sports arenas, and community parks.

Shelving and pallet rack products are popular with warehousing and manufacturing applications, ranging from a few units to multi-level and high rise applications.

Lockers are widely used in educational facilities, fitness centers, healthcare, military, emergency response, commercial and industrial locations.

Penco's History

In 1869, a man named L. Lewis Sagendorph fulfilled his ambition to begin his own company that would produce the finest metal products in America. He called his fledgling business the Penn Metal Corporation of Pennsylvania, and began by making steel culvert pipe on Oregon Avenue in South Philadelphia.

Over the years, Penn Metal's product lines broadened to include lockers, shelving and even aircraft landing mats. A reputation for quality fabrication spread, and the company's influence became nationwide. In the 1950's, the name was shortened to Penco Products and the plant and offices were expanded to a modern facility in Oaks, Pennsylvania, near Valley Forge.

In 2001, the manufacturing facility was moved from Oaks to a 475,000 square foot manufacturing facility in Hamilton, North Carolina, allowing significant room for expansion. In 2013, the corporate headquarters was moved from Skippack, Pennsylvania to Greenville, North Carolina.

Headquarters in Greenville, NC

Garment Dispensing

Penco Products, Inc. builds upon 50 years of experience in the design, fabrication and sales support of garment lockers through its acquisition of Steiner Systems, an industry trailblazer and leader. This experience, combined with Penco's nearly 150 years history of providing a full range of storage solutions, achieves an unmatched level of expertise to ensure a superior product and high level of customer support.

Our wide spectrum of professional garment distribution lockers includes hanging garment dispensers, folded garment dispensers, laundry lockups and towel and linen control centers. These robust products are designed and built to provide the end user with many years of uninterrupted service.

The sturdy steel construction features a 16 gauge frame, 18 gauge door and 24 gauge sides. For metal finishing, we employ the latest in powder coating technology. Unlike liquid paint systems, powder coating becomes part of the steel surface, not just attached to it. Using melted plastic powders, the durability has been proven in tests to last three times longer than standard paint finishes.

Hygiene Products

Penco Products offers one of the most complete air freshener systems on the market today.

Penco Air Care

- Alpine-Mist™ Aerosol System
- Swiss-Air Fan System

Additional Hygiene Products

- Pumicized Waterless Grit Hand Cleaner

ISO Certified Facility

Penco Full Feature Garment Lockers are manufactured exclusively at our International ISO 9001 and ISO 14001 certified facility.

Hanging Garment Dispensers

The Key to Inventory Control and Savings!

- Individual locker provides each user with a locked compartment for personal belongings including uniforms, equipment, supplies or tools
- Simultaneous access to all lockers by management is available through the master door
- All hardware is zinc plated and assembly rivets are rust-proof aluminum

Powder Coat Finish

- Penco's environmentally-friendly tough powder coat finish durability has been proven in tests to last three times longer than standard paint.
- Resistant to humidity, corrosion, and small impacts
- A longer lasting finish translates into reduced equipment costs, increased value and profitability

See accessories on page 14

For safety purposes, it is strongly recommend that all units be floor and wall anchored. For safety and complete function, lockers must be properly leveled.

Industrial Grade Hanging Garment Racks

Penco's industrial grade Z-Racks™ are easy to assemble garment racks that are widely used in the Professional Laundry Industry.

The "Z" shape of these space-saving rolling racks allow them to nestle into another unit, creating more floor space. The long-lasting durability of Penco's Z-Rack™ makes them a clear choice for anyone who needs to move or store large quantities of hanging garments.

Both models have these features:

- Heavy duty 5" Swivel Casters
- Galvanized uprights, hang rail and connectors
- Ships knockdown for freight savings
- Easy assemble
- 14 gauge powder coated base in gray

Galvanized steel uprights, hang rail and connectors

Z-Rack™

Z-Rack Specifications

Description	Part No.	Size	Weight
Single Z-Rack (one hang rail)	76ZR00000	63"W 23"D 66"H	42 lbs.
Double Z-Rack (two hang rails)	76ZR00025	63"W 23"D 76" H	55 lbs.

Heavy Duty 7 Gauge

Penco's bag stand is ideal for soiled laundry collection in restaurants, catering facilities and other food service industries.

Heavy Duty 7 Gauge

- Constructed from heavy duty 7 gauge hot rolled rounded edge steel for durability
- Powder coat finish
- All hardware is zinc plated
- Packed 5 per bundle

For Reduced Fire Risk

Penco now stocks a range of Safety Waste Cans to satisfy virtually any requirement. Safety Waste Cans minimize the risk of a major fire hazard - spontaneous combustion of rags and cloths soaked with solvents, thinners, linseed oil, combustible adhesives and other flammable liquids. All cans feature the following:

- All-steel construction
- Foot pedal offers hands-free opening
- Self-closing cover opens to no more than 60 degrees per FM requirements
- Unique raised flow-through base circulates air and disperses heat
- In compliance with OSHA 29CFR 1910.125

An Inexpensive Safety Policy

Safety Waste Cans reduce oxygen required for combustion. They protect your shop or job site from fires that can start from:

- Spontaneous combustion
- Spark
- Careless use of smoking materials

Meets OSHA • FM Approved • UL Listed • 10-Year Warranty.

Always review fire safety with employees!

- Insist that your employees dispose of oily rags and wipes in proper receptacles
- Empty daily in the manner advised by your local fire authorities

All models are also available in Yellow

100% Leak Tested Cans backed by our 10 Year Limited Warranty

Steel Lockers

Overview

NOTE: All-Welded, Angle Iron, Stadium and Patriot lockers are not shown above.

Penco has been building lockers for decades that last for decades and has become a part of the fabric of American life. Look in any school and chances are you'll find Penco's lockers in the athletic department, field house, faculty break room and of course, lining the corridors.

Penco has locker solutions for recreation centers, health clubs, hospitals, back office and industry break rooms, while at the same time delivering the widest range of solutions to serve first responders in the military, law enforcement and fire and rescue profession.

Penco's complete line of steel lockers include these industry-recognized brands:

- Vanguard™
- Guardian™
- Invincible II™
- Patriot®
- Rapid Response Duffel™
- All-Welded
- Angle Iron
- Stadium®
