AT A GLANCE

ABOUT PENCO

Penco's long history of providing storage solutions reflects its product expertise, innovation, and commitment to customer support.

STANDARD SHELVING

Clipper® Shelving features Hi-Performance® Box Beam Shelves in a range of sizes and capacities, making it a flexible solution for everything from back rooms to multi-level installations.

Penco Clipper Clip

- Easy installation
- Holds shelves firmly in place.
- Can be repositioned at any time.

FINISH

High-quality powder coat finish is applied to the paint manufacturer's specifications for optimum appearance and performance. Finishes releasing VOCs are not acceptable. Standard coating thickness is a minimum of 1 mil dry film. Select from the manufacturer's standard colors.

Open Unit

Closed Unit

POST OPTIONS

Box Post: Provides a clean, near-flush front for easy access to the shelf width. Commonly used at the front of the shelving unit.

Offset Angle Post: Features attachment points for side and back panels or sway braces. Commonly used at the rear of the shelving unit.
