AT A GLANCE

ABOUT PENCO

Penco's long history of providing storage solutions reflects its product expertise, innovation, and commitment to customer support.

STANDARD SHELVING

Erectomatic Shelving features Hi-Performance Box Beam Shelves in a range of sizes and capacities, offering flexible storage from back rooms to multi-level and high-rise installations.

Erectomatic Shelf Clip

- One-piece compression clip.
- Secures shelves without taking up storage space.
- Four clips included with each shelf.

FINISH

High-quality powder coat finish is applied to the paint manufacturer's specifications for optimum appearance and performance. Finishes releasing VOCs are not acceptable. Standard coating thickness is a minimum of 1 mil dry film. Select from the manufacturer's standard colors.

ADDITIONAL OPTIONS

Accessories include foot plates, base strips, label holders, shelf dividers, bin fronts, and swinging doors.

Open Unit

Closed Unit

POST OPTIONS

Beaded Front Post: Flush front allows full-width shelf access and straight-in shelf installation. For use at the front of the unit.

Offset Angle and T-Posts: Offset Angle Posts are used at the rear of single or end units; T-Posts join adjoining units at the rear.

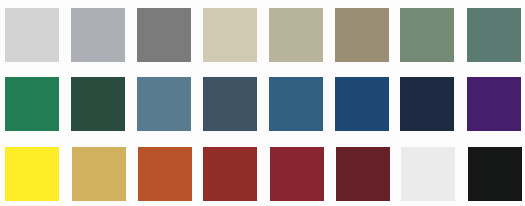

Heavy Duty H-Post: Offers higher load capacity than a beaded post and can be used at the front or rear in high-rise and high-density systems.

Beaded Front Post

Heavy Duty H-Post
